

Collage and Atmosphere

Architecture

What an atmospheric image is arguing, and the questions to ask of your own.

An image persuades whether or not you intended it to.

Ask of every image

What time of day, and why that one?

Who is in it, and who is missing?

What weather have you chosen to show?

Is the eye level one a person occupies?

What is cropped just outside the frame?

Craft

Consistent light direction and shadow

One drawing technique, held throughout

Entourage at a believable density

Say plainly if it is not to scale

A visual that shows a sunny afternoon in a rainy city is a claim about the project. Be able to defend the claim.
