

Bourdieu: Forms of Capital

Sociology

Four convertible resources, plus habitus and field, and how advantage is passed on.

Each form converts into the others at a rate the field sets.

Form	What it is	How it shows
Economic	Money and assets	Fees paid, risk absorbed
Cultural	Taste, knowledge, credentials	Ease with the syllabus
Social	Usable networks	The introduction, the reference
Symbolic	Recognised prestige	Being taken seriously

Habitus: durable dispositions from upbringing. Field: the arena with its own stakes. Advantage looks like natural fit.
