

Household Chemicals

Practical skills

Storage, mixing and the combinations to avoid.

Educational reference. Ventilate whenever using anything strong.

Never mix	Produces
Bleach + ammonia	Chloramine gas
Bleach + acid (vinegar, limescale remover)	Chlorine gas
Bleach + rubbing alcohol	Chloroform and other compounds
Different drain cleaners	Violent reaction, heat
Hydrogen peroxide + vinegar	Peracetic acid

Educational reference. Store chemicals in original labelled containers, out of reach of children, and never in drinks bottles.
