

Number Bonds to 10

1st Grade

Every pair that makes ten — the most useful set of facts in early maths.

Two numbers that make ten are called a bond. Learn all six pairs.

This	and this	make ten
0	10	$0 + 10 = 10$
1	9	$1 + 9 = 10$
2	8	$2 + 8 = 10$
3	7	$3 + 7 = 10$
4	6	$4 + 6 = 10$
5	5	$5 + 5 = 10$

Knowing $7 + 3$ also gives you $10 - 3$ and $10 - 7$. Three facts for the price of one.
