

First, Second, Third

1st Grade

Position words — different from counting words, and easy to muddle.

Counting words say how many. Ordinal words say which one in the line.

Number	Ordinal	Short
1	first	1st
2	second	2nd
3	third	3rd
4	fourth	4th
5	fifth	5th
10	tenth	10th
20	twentieth	20th

The first three are irregular. From fourth onwards you just add -th.
