

My Community

2nd Grade

The places in a town and what each one is for.

A community is the people and places that look after everybody in one area.

Place	What happens there
School	children learn
Library	borrow books, use computers
Hospital	people are treated when ill
Fire station	firefighters wait, ready to go
Post office	send letters and parcels
Park	everyone can play and rest
Shops	buy food and things you need
Town hall	decisions about the area are made

Some are paid for by everyone through taxes. The park and the library are yours already.
