

Continents & Oceans

3rd Grade

A world map with all seven continents and five oceans labelled.

A flat map stretches the land near the poles — Antarctica is smaller than it looks here.

SEVEN CONTINENTS

- **Asia** largest · most people
- **Africa** the Sahara and the Nile
- **North America** Canada, USA, Mexico
- **South America** the Amazon and the Andes
- **Antarctica** coldest · no countries
- **Europe** second smallest, many countries

FIVE OCEANS

- **Pacific** largest and deepest
- **Atlantic** Americas to Europe & Africa
- **Indian** warmest
- **Southern** circles Antarctica
- **Arctic** smallest, mostly ice

FIND IT

Locate where you live, then trace to where someone you know lives.
