

Earth

4th Grade

The only planet known to have liquid water — and the only one with life.

The only planet known to have liquid water on its surface, and the only one known to have life.

24 hours

YEAR
365.25 days

MOONS
1

- 71% of the surface is covered by ocean.
- The atmosphere is mostly nitrogen, with 21% oxygen.
- The magnetic field shields us from solar radiation.
- Tilted 23.5°, which is what gives us seasons.
- The Moon's pull creates our tides.

LOOK FOR IT

Look down.

A "day" is one spin. A "year" is one trip round the Sun. On Earth they are nothing like ours.
