

2D Shapes

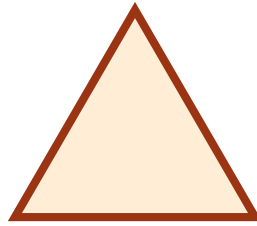

Kindergarten

Nine flat shapes with sides and corners counted for each.

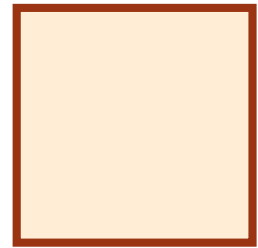

Circle

no straight sides

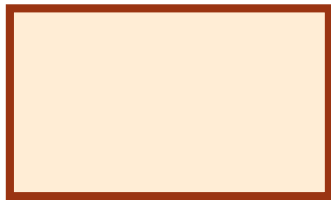

Triangle

3 sides · 3 corners

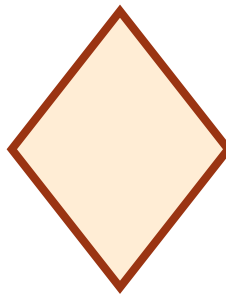

Square

4 sides · 4 corners

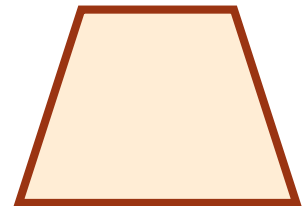

Rectangle

4 sides · 4 corners

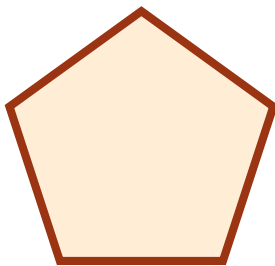

Rhombus

4 sides · 4 corners

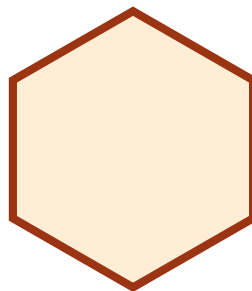

Trapezoid

4 sides · 4 corners

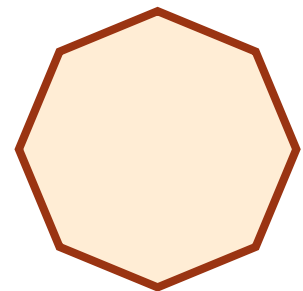

Pentagon

5 sides · 5 corners

Hexagon

6 sides · 6 corners

Octagon

8 sides · 8 corners

ASK

Not just 'what shape is it?' — 'how many sides, how many corners?'
