

Moving Checklist

Money

What to do and when, in the weeks around a move.

Working backwards from the day.

1

4 weeks before

Book movers, arrange time off, start decluttering.

2

2 weeks before

Set up post redirection. Notify bank, employer, doctor, insurer, DVLA.

3

1 week before

Confirm the move, pack an essentials box, arrange key handover.

4

Moving day

Take meter readings at both properties, photographed with the date.

5

First week

Register with utilities, update the electoral roll and council tax.

METER READINGS

Photograph the meter at the old property as you leave

And at the new one as you arrive

It settles almost every billing dispute

The essentials box — kettle, mugs, chargers, toilet roll, tools — should travel with you, not on the van.
