

Big and Small

Pre-Kindergarten

The first measuring word a child needs — and its opposite.

BIG

- An elephant
- A bus
- A tree
- A door
- The moon in the sky

SMALL

- A mouse
- A toy car
- A leaf
- A key
- A crumb on the floor

THE DIFFERENCE THAT MATTERS

Big and small only make sense next to each other — a dog is big beside a mouse and small beside a horse.

Ask 'bigger than what?' It turns a label into a comparison.
